## ***On the Cover:***

The cover depicts the proposed public art installation, *Music of the Elements/ Dance of Time*, that will be placed outside the new High School entrance and inside the atrium space. The installation includes four integrated sculptures, designed by artist Joy Wolke, entitled: *Dance of the Day*, *Infinity of the Mind*, *Blast Off Bench* and *DNA Rocket*. These sculptures are designed to reflect the hope, aspirations, wonder and journey that students from Needham High School experience during their four years. The pieces combine concepts from science, environmental technology, philosophy and nature, interwoven into beautifully designed interactive artworks. The public art project is funded in part by grants from the Massachusetts Cultural Council, the Needham Education Foundation and Needham High School PTC.

***Special thanks to the Needham High School Graphic Arts Department for cover layout and document assembly, and to the Needham Production Center for printing.***
